Mr. Isidor E. Offenbach, Chairman  
Committee on Survey of Services to the Blind  
Council of Social Agencies  
397 Temple Street  
New Haven 10, Connecticut

Dear Mr. Offenbach:

Enclosed please find a copy of the statistical tables that have been developed on the basis of data collected by the Council of Social Agencies in the course of your survey of services available to blind residents of your community.

We hope that you will find the data contained in this report to be helpful in your efforts to improve services for blind persons.

You will recall that in the course of our first meeting with you our understanding was that the role of the American Foundation for the Blind would be limited to providing you with the schedules required for this study and a statistical analysis of the data collected through the use of those schedules. Accordingly, no effort has been made to interpret the data or suggest its program implications for your community. In a few instances comments are made on tables. These comments are general in nature and are not intended as recommendations.

I should like to take this opportunity to assure you of our very active interest in the work of your Committee. After you have reviewed the data contained in this report, we hope you will feel free to call upon us if you think we can be helpful in your Committee's efforts to develop program recommendations.

Cordially,

Alexander F. Handel  
Consultant in Community Planning

MEMORANDUM FOR THE BOARD OF DIRECTORS

June 15, 1955

RE: Report of the Committee on the Status of the Blind in the United States

Dear Mr. Chairman:

I am pleased to have the opportunity to discuss the report of the Committee on the Status of the Blind in the United States. The report is a valuable contribution to the knowledge of the needs and problems of the blind in this country.

The report is a comprehensive study of the status of the blind in the United States. It covers a wide range of subjects, including education, employment, housing, and social services. The report is based on a thorough investigation of the needs and problems of the blind in this country. It is a valuable contribution to the knowledge of the needs and problems of the blind in this country.

I am sure that the report will be of great value to the Board of Directors. It will provide a basis for the development of new programs and services for the blind in this country.

Sincerely,  
[Signature]

Respectfully,  
[Signature]

# STATISTICAL DATA

Table 1.--ESTIMATE OF THE NUMBER OF BLIND PERSONS IN CONNECTICUT, 1950, 1952, 1954, 1955\*

<u>Year</u>	<u>Population**</u>	<u>Rate per 1,000 Population</u>	<u>Number of Blind Persons</u>
1950	2,022,000	1.56	3,164
1952	2,044,000	1.56	3,197
1954	2,185,000	1.56	3,420
1955	2,233,000	1.56	3,494

\*Based on Dr. Ralph G. Hurlin's formula described in his publication, Estimated Prevalence of Blindness in the United States; American Foundation for the Blind, New York, 1953.

\*\*Based on the 1952, 1954 and 1955 revised Census population estimates for the State of Connecticut, United States Bureau of the Census, Washington, D.C.

Table 2.--PROJECTED ESTIMATE OF THE NUMBER OF BLIND PERSONS IN GREATER NEW HAVEN, CONNECTICUT, 1950, 1952, 1954, 1955\*

<u>Year</u>	<u>Population**</u>	<u>Rate per 1,000 Population</u>	<u>Number of Blind Persons</u>
1950	266,904	1.56***	416
1952	269,808	1.56	421
1954	288,420	1.56	450
1955	294,756	1.56	460

\*Based on Dr. Ralph G. Hurlin's formula described in his publication, Estimated Prevalence of Blindness in the United States; American Foundation for the Blind, New York, 1953. In this type of statistical estimate, it must be realized that the potential margin of error increases sharply with the decrease in population base.

\*\*Based on the 1952, 1954, and 1955 revised Census population estimates for the State of Connecticut, United States Bureau of the Census, Washington, D.C.

\*\*\*Rates assumed to be the same as estimated rate for state 1950-54.

# STATISTICAL DATA

Table 1.-ESTIMATE OF THE NUMBER OF BLIND PERSONS IN CONNECTICUT, 1950, 1952, 1954, 1956, 1958, 1960

Year	Population	Rate per 1,000 Population	Number of Blind Persons
1950	2,092,000	1.56	3,261
1952	2,044,000	1.56	3,197
1954	2,182,000	1.56	3,400
1956	2,233,000	1.56	3,484

Based on Dr. Ralph G. Berlin's formula described in his publication, "Prevalence of Blindness in the United States," American Foundation for the Blind, New York, 1953.

Revised on the 1952, 1954, and 1956 revised Census population estimates for the State of Connecticut, United States Bureau of the Census, Washington, D.C.

Table 2.-REVISED ESTIMATE OF THE NUMBER OF BLIND PERSONS IN GREATER NEW HAVEN, CONNECTICUT, 1950, 1952, 1954, 1956, 1958, 1960

Year	Population	Rate per 1,000 Population	Number of Blind Persons
1950	266,901	1.56	416
1952	269,808	1.56	421
1954	288,420	1.56	450
1956	291,728	1.56	455

Based on Dr. Ralph G. Berlin's formula described in his publication, "Prevalence of Blindness in the United States," American Foundation for the Blind, New York, 1953. In this type of statistical estimate, it must be realized that the potential margin of error increases sharply with the decrease in population base.

Revised on the 1952, 1954, and 1956 revised Census population estimates for the State of Connecticut, United States Bureau of the Census, Washington, D.C.

Revised assumed to be the same as estimated rate for state 1950-56.

Table 3.--ESTIMATED AGE DISTRIBUTION OF THE BLIND POPULATION OF GREATER NEW HAVEN,  
CONNECTICUT, AS OF JULY 1955\*\*

Age Group**	Percent of Total Blind Population	Number of Blind Persons
Under 5.....	2	6
5 - 17.....	2	10
18 - 44.....	15	70
45 - 64.....	26	120
65 and over.....	55	254
Total .....	100	460

\*Based on Dr. Ralph G. Hurlin's formula described in his publication, Estimated Prevalence of Blindness in the United States; American Foundation for the Blind, New York, 1953.

\*\*Age breakdown used by the U. S. Bureau of the Census, 1950 - 1955.

Table 3.--ESTIMATED AGE DISTRIBUTION OF THE BLIND POPULATION OF GREATER NEW YORK, CONNICTICUT, AS OF JULY 1935\*

1. The first part of the report is a summary of the work done during the year. It is divided into two main sections: a general summary and a summary of the work done in each of the four departments.

2. The second part of the report is a detailed account of the work done in each of the four departments. It is divided into four sections: the first section is a general summary of the work done in each department; the second section is a summary of the work done in each of the four departments; the third section is a summary of the work done in each of the four departments; and the fourth section is a summary of the work done in each of the four departments.

3. The third part of the report is a summary of the work done in each of the four departments. It is divided into four sections: the first section is a general summary of the work done in each department; the second section is a summary of the work done in each of the four departments; the third section is a summary of the work done in each of the four departments; and the fourth section is a summary of the work done in each of the four departments.

4. The fourth part of the report is a summary of the work done in each of the four departments. It is divided into four sections: the first section is a general summary of the work done in each department; the second section is a summary of the work done in each of the four departments; the third section is a summary of the work done in each of the four departments; and the fourth section is a summary of the work done in each of the four departments.

5. The fifth part of the report is a summary of the work done in each of the four departments. It is divided into four sections: the first section is a general summary of the work done in each department; the second section is a summary of the work done in each of the four departments; the third section is a summary of the work done in each of the four departments; and the fourth section is a summary of the work done in each of the four departments.

Student.....	3	2	3	—
Information not available.....	8	7	5	3
Total .....	117	100	61	56

Comment: Of the 368 adult blind clients studied, 251 or 68% were not considered employable.

\*Of the 38 clients reported as working full time, 4 were known to the State Welfare Department, Division of Public Assistance; 36 to the Board of Education of the Blind; 3 to the Connecticut State Employment Service; one to Travelers' Aid Society, and another to the Dental Clinic Society of New Haven. Seven of these clients were known to more than one agency.

\*\*Of the 10 reported as employed part time, 3 were known to the Division of Public Assistance.

\*\*\*Of the 28 employable blind clients who were unemployed at that time, all but one were known to the State Board of Education of the Blind. They were also known to the following agencies: nine to the Division of Public Assistance, two to the Visiting Nurse Association, and one to the American Red Cross.

Table 14.--OPHTHALMOLOGICAL EXAMINATIONS OF 368 ADULT BLIND CLIENTS KNOWN TO SOCIAL AGENCIES IN GREATER NEW HAVEN, CONN., BY SEX, NOVEMBER 1955

Ophthalmological examination	Total blind clients		Sex	
	Number	Percent	Male	Female
Examination by ophthalmologist.....	307	83	131	176
Examination not given by ophthalmologist.....	30	8	15	15
Information not available.....	31	9	4	27
Total .....	368	100	150	218

Comment: No table of otolaryngological examinations has been compiled due to the fact only seventeen blind persons among the 382 included in this survey had been given a hearing test according to the information returned on the schedules. Most of the seventeen persons were pupils at the Connecticut Institute for the Blind.

In cases of blindness, hearing becomes increasingly important. Not only is it essential in communication, but it is also imperative to the safety of the blind person.

Table 15.--YEAR OF LAST OPHTHALMOLOGICAL EXAMINATION OF 257 ADULT BLIND CLIENTS\*  
(WITH SOME VISION) KNOWN TO SOCIAL AGENCIES IN GREATER NEW HAVEN,

1900	Feb	1	10:00	Chicago	Ninety-eighth meeting of the Department of Chemistry
1900	Mar	1	10:00	Chicago	Ninety-ninth meeting of the Department of Chemistry
1900	Apr	1	10:00	Chicago	Hundredth meeting of the Department of Chemistry

Table 18.--EDUCATION OF 368 ADULT BLIND CLIENTS KNOWN TO SOCIAL AGENCIES IN  
GREATER NEW HAVEN, CONN., BY SEX, NOVEMBER 1955

Extent of education	Total blind clients		Sex	
	Number	Percent	Male	Female
None.....	16	4	7	9
Attended or graduated from grade school.....	178	48	77	101
Attended or graduated from high school.....	64	18	25	39
Beyond high school.....	50	14	18	32
Information not available.....	60	16	23	37
Total .....	368	100	150	218

The first part of the report deals with the general situation of the country and the progress of the work during the year. It is followed by a detailed account of the various projects and the results achieved.

The second part of the report deals with the financial aspects of the work. It gives a detailed account of the income and expenditure for the year and shows how the funds have been used.

The third part of the report deals with the personnel of the organization. It gives a list of the staff and their duties and shows how they have contributed to the work.

The fourth part of the report deals with the future plans of the organization. It shows the objectives for the next year and the steps that will be taken to achieve them.

The fifth part of the report deals with the conclusions of the year. It summarizes the main findings and the lessons learned from the work.

The sixth part of the report deals with the appendices. It contains a list of the documents and other material referred to in the report.

Table 19.--MOBILITY OF 368 ADULT BLIND CLIENTS KNOWN TO SOCIAL AGENCIES IN GREATER NEW HAVEN, CONN., BY SEX, NOVEMBER 1955

Usual method of mobility	Total blind clients		Sex	
	Number	Percent	Male	Female
Homebound.....	42	12	14	28
Travels with sighted person.....	207	54	70	137
Travels with guide dog.....	6	2	3	3
Travels with cane.....	18	5	13	5
Travels without aid of any kind.....	72	20	43	29
Information not available.....	23	7	7	16
Total .....	368	100	150	218

Comment: Of the total 368 known blind adults in Greater New Haven, 249 or 68% were either homebound or required a sighted person to guide them. The problem of mobility is an acute one for both men and women. Mobility is an essential prerequisite for vocational, social and psychological rehabilitation.

Table 19A.---MOST USUAL METHOD OF MOBILITY OF 204 ADULT BLIND CLIENTS KNOWN TO SOCIAL AGENCIES IN GREATER NEW HAVEN, CONNECTICUT, BY DEGREE OF VISION, NOVEMBER 1955

Method of mobility	Total clients		Degree of vision				Unknown
	Num-ber	Per-cent	Absolute blindness	Light perception only	Motion perception to 5/200	5/200 to 10/200	10/200 to 20/200
Homebound.....	42	12	17	11	1	2	5 6
Travels with sighted person.....	207	54	50	51	24	8	66 8
Travels with guide dog.....	6	2	3	1	1	--	1 --
Travels with cane.....	18	5	4	7	1	--	5 1
Travels without aid of any kind.....	72	20	4	3	2	12	47 4
Information not available.....	23	7	7	3	2	--	4 7
Total.....	368	100	85	76	31	22	128 26

Date	No.	L	S	M	H	Z	P	S	T
1911	1	1	1	1	1	1	1	1	1
1912	2	2	2	2	2	2	2	2	2
1913	3	3	3	3	3	3	3	3	3
1914	4	4	4	4	4	4	4	4	4
1915	5	5	5	5	5	5	5	5	5
1916	6	6	6	6	6	6	6	6	6
1917	7	7	7	7	7	7	7	7	7
1918	8	8	8	8	8	8	8	8	8
1919	9	9	9	9	9	9	9	9	9
1920	10	10	10	10	10	10	10	10	10

Table 20.--LIVING ARRANGEMENTS OF 368 ADULT BLIND CLIENTS KNOWN TO SOCIAL AGENCIES  
IN GREATER NEW HAVEN, CONN., BY SEX, NOVEMBER 1955

Living arrangements	Total blind clients		Sex	
	Number	Percent	Male	Female
Living alone.....	42	11	7	35
Rooming or boarding.....	35	10	17	18
Living with own family.....	168	45	80	88
Living with other relatives..	69	19	19	50
Living with friend.....	12	3	5	7
Living in institution.....	31	9	15	16
Information not available.....	11	3	7	4
Total .....	368	100	150	218

Comment: Of the 168 persons who were living with their families, 44 or 26% were known to be functioning in the capacity of the head of their households.

Table 21.--AGE RANGE OF SEVENTY-SEVEN ADULT BLIND CLIENTS LIVING ALONE OR BOARDING,  
KNOWN TO SOCIAL AGENCIES IN GREATER NEW HAVEN, CONN., BY SEX, NOVEMBER 1955

Age range	Total blind clients		Sex	
	Number	Percent	Male	Female
15 - 24 years.....	0	—	0	0
25 - 34.....	4	5	3	1
35 - 44.....	3	4	1	2
45 - 54.....	7	8	2	5
55 - 64.....	17	22	6	11
65 and over.....	43	57	11	32
Information not available.....	3	4	1	2
Total .....	77	100	24	53

Comment: The largest group of clients living alone or boarding falls in the 65 and over age range. This group numbers 46 or 60% of the total 77 blind persons. Consideration should be given to providing a supervised boarding home service for these aging and unattached individuals. This is a socially more preferable and economical method of serving this group than is institutionalization.

\*This organization did not provide data.

\*\*This total necessarily includes duplication of services.

1. The first part of the paper discusses the importance of the study and the objectives of the research.

2. The second part of the paper discusses the methodology used in the study and the data collection process.

3. The third part of the paper discusses the results of the study and the findings of the research.

4. The fourth part of the paper discusses the conclusions of the study and the implications of the findings.

5. The fifth part of the paper discusses the limitations of the study and the areas for future research.

6. The sixth part of the paper discusses the significance of the study and the contribution of the research.

7. The seventh part of the paper discusses the ethical considerations of the study and the approval of the research.

8. The eighth part of the paper discusses the acknowledgments of the study and the funding of the research.

9. The ninth part of the paper discusses the references of the study and the sources of the research.

10. The tenth part of the paper discusses the appendices of the study and the additional information.

11. The eleventh part of the paper discusses the glossary of the study and the definitions of the terms.

12. The twelfth part of the paper discusses the index of the study and the location of the information.

13. The thirteenth part of the paper discusses the list of figures of the study and the visual representation of the data.

14. The fourteenth part of the paper discusses the list of tables of the study and the presentation of the data.

15. The fifteenth part of the paper discusses the list of abbreviations of the study and the shortened forms of the words.

16. The sixteenth part of the paper discusses the list of symbols of the study and the signs used in the research.

17. The seventeenth part of the paper discusses the list of units of the study and the measurements used in the research.

18. The eighteenth part of the paper discusses the list of acronyms of the study and the shortened forms of the names.

19. The nineteenth part of the paper discusses the list of terms of the study and the definitions of the concepts.

20. The twentieth part of the paper discusses the list of variables of the study and the factors that are being measured.

21. The twenty-first part of the paper discusses the list of hypotheses of the study and the predictions of the research.

22. The twenty-second part of the paper discusses the list of theories of the study and the frameworks used in the research.

23. The twenty-third part of the paper discusses the list of models of the study and the representations of the concepts.

24. The twenty-fourth part of the paper discusses the list of methods of the study and the techniques used in the research.

25. The twenty-fifth part of the paper discusses the list of instruments of the study and the tools used in the research.

26. The twenty-sixth part of the paper discusses the list of procedures of the study and the steps followed in the research.

27. The twenty-seventh part of the paper discusses the list of protocols of the study and the rules governing the research.

28. The twenty-eighth part of the paper discusses the list of guidelines of the study and the standards used in the research.
